

Honor Roll of Legacy Builders

It takes a noble man to plant a seed for a tree that will some day give shade to people he may never meet. David Trueblood

Although it is reported that only 7% of Americans make plans to give after they are gone, an increasing number of our donors are not only creating funds to be personally involved with their giving *today*, but are also making plans to provide for the *future needs* of their community through bequests in their wills.

CCF is honored to be stewards of such forward-thinking philanthropy and welcomes all those who have joined our family of Honor Roll of Legacy Builders. Thank you.
